Sir,

I have the honour to state that the sanction accorded in G.O.No. 788 His Edn., dated 2-5-27 for the establishment of a Higher Elementary Grade Training School for Kanarese women teachers at Hospet on a temporary basis expires on 30-6-31.

2. The training school at Hospet has been working under many difficulties. In the first place the only source of Kanarese teachers is the South Kanara District and ~~it has~~

women from South Kanara have been very reluctant to take up work in so inaccessible a place as Hospet. Difficulty was also experienced in opening and maintaining a hostel and consequently it was practically impossible for any students from the outlying districts to enter the training school. The model section has not been under the control of the Headmistress but under the Municipal Council and the arrangement for practical and demonstration teaching have consequently been difficult. The first two difficulties have now been solved, a permanent and suitable training school staff has been secured and the hostel has been opened. With the permission of Government it is proposed to take over the municipal elementary school for girls under Government control as a practising section.

'Go No: 2375 14.11.29.

(P)

3. During this very difficult period the numbers in the training classes have been maintained but have not yet increased, the number trained annually being eleven or 12.*

* apparently in higher & lower Elv: Classes

4. The training school caters for the need of the Kanarese Taluks in the Bellary District which is a bi-lingual area. It is also a very backward region and the maintenance of a training centre for women at Hospet is essential for its development and there is little doubt that now the training school is successfully established and hostel accommodation provided that the numbers admitted into the classes will steadily increase.

5. I therefore recommend that the training school for mistresses be retained on a permanent basis with the following staff and establishment employed therein, with effect from 1-7-31.

(1) Headmistress in the cadre of Sub Assistant Inspectress or School Assistant

(2) 1 L.T. School Assistant - do (permanent)

(3) 1 Assistant Secondary grade in the secondary grade cadre (permanent)

(4) 1 combined Sewing and Drawing mistress ,, ,,

(5) 1 Music mistress ,, ,, ,,

(6) 1 Physical educationist* ,, ,, ,,

(7) 1 Clerk on the scale Rs.35 - 60

(8) 1 Peon ,, Rs.12 - 18

* Sanctioned vide go.No. 650 Edn 9.4.30.

(Of the above Nos. 2 and 3 are permanent posts transferred from the Government Training School, Bellary - vide G.O.No. 783 Mis Edn., dated 2-5-27, G.O.No. 1191 Edn., dated 26-5-28 - the rest are temporary posts)

6. I also recommend that the Municipal Elementary School for girls Hospet be taken under Government control. The School was originally a Government School and has a permanent building and an adequate playground. The Municipal Council Hospet has passed a formal resolution agreeing to handover the school to Government together with the building, furniture, library and other equipment. A subsidy of Rs.1398 is being paid to the Municipal Council for the maintenance of this school and this will be discontinued from the date on which the school is taken under Government control.

7. The financial aspect of these two proposals is as fallows:.

(a) No extra expenditure is involved by the proposal to retain the training school for mistresses at Hospet on a permanent basis.

(b) the extra expenditure involved in taking over the municipal elementary school for girls

Extra cost in 1931-32

Pay of 6 teachers (secondary grade) at Rs.45 for 8 months: Rs.45 x 6 x 8 : 2160

less a proportionate amount of the subsidy due to the Municipal Council for the maintenanceof the school which is Rs.932

The total extra expenditure in 1931-32 therefore is Rs.2160 - 932 : 1228

Ultimate cost

Pay of 6 secondary grade teachers at Rs.76 per mensem Rs.76 x 6 x 12: Rs.5472

Less the subsidy of Rs.1398 now being paid to the Municipal Council : Rs.5472 - 1398 : 4074

No extra provision will be required under items of expenditure other than staff, eg., furniture, books, equipment, as the initial equipment required will be handed over by the Municipal Council and the normal provision made for the Government Training School under these heads will suffice for the institution as a whole.

I am including the necessary provision for scheme in Part II of Budget Estimate for 1931-32.

I have the honour to be,

Sir,

Your most obedient servant,

Govt training school for Hospet- Further retention-D.P.I's letter R.C.C,No: 250 A/30 d/ 26-9-30

The number of students trained annually in the Govt training school for Kanarese women teachers, Hospet, is reported to be only 11 or 12. In view of its poor strength the Govt consider that the school may continue to be on a temporary basis for another two years from 1-7-31 and that the question of its permanent retention may be considered at the end of that period.

2. The school has at present only two classes and the strength in each of these is very small. There is no model school attached to the institution and the headmistress can have very little administrative work to do; it may be possible for her to take charge of one of the two classes with the assistance of the teachers of special subjects. The latter may also be in a position to assist the headmistress in the clerical work of the school in addition to their work connected with the teaching of the special subjects for the two small training classes. The question has therefore been raised whether the post of graduate assistant in the school may not be kept in abeyance for the present

and the post of clerk abolished.

The Director is requested to offer his remarks on this question.

Sir,

With reference to Government Memorandum No. 2451 B-2 dated 18-11-30 regarding the permanent retention of the Government Training School for Kanarese Women, Hospet, I have the honour to state as follows:

2. I consider that it would be desirable for Government to decide now whether training facilities should be provided for the Kanarese women of the Ceded Districts who cannot take the long and expensive cross country journey to South Kanara to join the training schools at Mangalore and Udipi. Even if a few of them were prepared to undertake the journey they cannot be admitted into these schools as the number of candi-

candidates who apply for admission from the South Kanara district itself are already in excess of the numbers that can be admitted into the two Training Schools in that District. If any provision is to be made to train the Kanarese speaking women of the Ceded Districts a Training school at Hospet is indispensable.

It has been found impossible to work the training school at Hospet satisfactorily on its ~~permanent~~ present temporary basis without a model school attached to it and I am of opinion that either the schools should be continued under conditions which will make its proper development practicable it should be decided that no facilities are to be provided for the education of Kanarese Girls in the Ceded Districts and the school should be closed as soon as student at present under training have completed their course.

Sir,

With reference to para 2 of Government Memo's No.2451-B-3 dated 12-12-30 and 2451 B-2 dated 18-11-30, I have the honour to state there is a model school attached to the Government Training School, Hospet though under Municipal management and the Headmistress is responsible for its organisation and administration subject to the approval of the Chairman, Municipal Council, Hospet. The management of two institutions - the training classes which are a Governmen institution directly under her control, and the practising section indirectly under her control - adds not a little to the difficulty of her work in spite of the fact that the

Chairman

Chairman, Municipal Council, Hospet is now co-operated with the Headmistress in every way.

While the number of students in each section of the Higher and Lower Elementary grade is small the educational attainments of students who have finished their education at Standard V and those that have continued up to Standard VIII differ so widely that it is difficult to combine them together in any subjects except needlework and drawing.

The graduate assistant's post is not at present filled and the Inspectress suggests that the music teacher's post might be reduced to a part time post on Rs.26 a month.

The Inspectress reports that the retention of the clerk is essential and agree with her. Including the periods taken by the teachers in the model school, the Headmistress does 28 periods of teaching, the second Assistant 31 and the combined drawing and sewing mistress 26 in addition to helping the Headmistress and Assistant in the preparation of charts and illustrations for nature study. Geography, Sociology etc.,. The part time music teacher will take eighteen periods a week.

3. In an institution with 2 classes having a strength of 11 or 12 only, as (4), (5) and (6) will practically have little or negligible work. There will (not) be also enough work for a clerk [item (7)], even if the work, if any, of the correspondingly small hostel is taken into account. Also as there are 2 separate teachers' items (2) and (3) for the 2 classes and as the administrative work relating to such a small

School will be insignificant, the Headmistress - item (1) - will have little work. The School is thus clearly overstaffed and staff on such extravagant Scale does not seem to have been allowed to any other dept. The Headmistress can take charge of one of the classes and she can be assisted in her teaching, clerical and administrative work (the latter two being negligible) by Nos. (4), (5) and (6) who are secondary grade teachers and who by themselves, as pointed out above, will not have enough work. This dept. may accordingly suggest that the post of L.T. asst - item (2) - be held in abeyance and that of the clerk, item (7), temporary - abolished. P.W.D. Supervisors (Rs. 80-250) who have much outdoor as well as clerical work, ordinarily are not allowed any clerk unless there is atleast 5 hours' clerical work per day. The reduction suggested at A above would thus appear very modest and Law (Edn.) may be requested to examine the question in consultation with the D.P.I.

In agreeing to the retention of the Hospet Training school for a further period of two years the Finance dept suggest that the question of keeping the post of L.T. asst. in the school in abeyance and of abolishing the post of clerk may be considered. The training school has two classes one a higher and the other a lower elementary training class. A training school which has two classes (e.g. a lower elementary training school which admits students each year) is ordinarily allowed a staff consisting of one headmistress and two assistants excluding the teachers of special subjects. A teacher for each class in the training school ~~in addition to~~ exclusive of the headmistress is allowed in all permanent training schools. Though the strength in the Hospet school is small, the two classes in it cannot be combined as the curricula for the higher and the lower elementary training course are different. The Finance dept also consider that some portion of the teaching work of the general staff can be done by the three teachers of special subjects who, it is assumed, are secondary grade teachers. The school has at present only two teachers of special subjects and not three as the physical training instructress will be employed only from July 1932. The Music mistress and the drawing and sewing mistress are not secy. trained teachers.

He adds that it has been found impossible to work the training school at Hospet satisfactorily on its present temporary basis without a model* school attached to it and that either the existing school should be sanctioned on a permanent basis or it should be closed as soon as the students at present under training have completed their course.

The Director has not offered any remarks on the suggestions contained in para 2 of the memo on pp 5-6 cf.
